Samashti Rudhrabhishekam -2019

Special Appeal to Devotees

31-01-2019

SNASS thanks all devotees and their families for their extensive moral, physical and financial support in many ways, which has made it possible for SNASS to enter into its successful 10th year and the forthcoming Samashti Rudhrabhishekam -2019 is a matter of pride for all of us.

There is no doubt that, in the last 10 years, SNASS created various milestones in the management of the temples of our village bringing back the traditional rituals and cultures in addition to renovation/infrastructural maintenance of temples. It is not far from truth to mention here that, given the current scenario of temples functioning in many villages, the joint efforts of the devotees and the SNASS committee members , have made our village a trend setter for other villagers.

We appreciate the strength and motivation provided by the visiting devotees from various parts of the country by their visits to the temples and their focus on temple functioning, their suggestions for improvements.

During the formation of SNASS, it was discussed and decided that entire SNASS family from various locations will meet ***at least once in a year*** (ie. In the month of MAY) and conduct the very Unique function for our temple (viz) Rudhrabhishekam in a combined manner ("Samashti") invoking the blessings Sri Nithyakalyani Amman, Sri Vyagrapureeswara swamy and also perform Sri Rama Navami function for Sri Varadharaja swamy of our village. Given due consideration to the logistics difficulties for the visiting members from outstation, it was felt that this effort of coming together will not only motivate the working committee/ team but also show the solidarity for their effort to maintain the temples. In addition, this was also thought to benefit the younger generations to come together and get to know each other and continue this journey of SNASS.

While the "intent" is still intact, it is a little disheartening to see that, over a period of time, the participation in large numbers for these functions is reducing for various reasons. While there may be genuine reasons for not being able to participate, it has also impacted the expectations and the much required motivation to the working/managing team who are putting their heart and soul in organising such mammoth events.

This Point was seriously discussed in the last SNASS MEET held in Chennai on 26th January 2019, and it was decided to celebrate the 10th Year of our Samshti Rudhrabhishekam (10th to 12th May 2019) as a **"Year of Consolidation and Togetherness"**. The main focus is to ensure that all SNASS Family members shall positively make earnest effort and attend Samashti Rudhrabhishekam not only in 2019 but in years to come, by making necessary planning amidst their busy schedule. This alone will go a long way to motivate the working/managing team of SNASS in addition to fulfilling the other intents mentioned above. Also it was proposed that the members who are regularly making annual visit to temple may also plan their trip combining this important joint function.

To facilitate the stay for outstation members during their visit to this function, the team members have offered to negotiate with Thiruvarur town Hotels for concessional rate provided there is sufficient number of room bookings by SNASS members, with prior intimation. For those who may like to avail common accommodation, SNASS will be able to organise common shelter in Community / Marriage hall provided there are sufficient people to occupy which can also be informed in advance. Information regarding the family name and no of members to avail Hotel/Common accommodation may please be made before End February 2019.

Food for all the days of functions are being organised by SNASS in the village as always.
